Fund Sub-Advisor

James Investment Research is an independently owned firm. James Investment Research utilizes a team approach, with seven individuals on the investment committee who are responsible for the day-to-day management of the Fund's portfolio.

Objective

The Fund's objective is total return and preservation of capital. The Fund seeks to achieve its objectives by investing primarily in common stocks, and American Depositary Receipts (ADRs) and fixed income securities.

Strategy

The James Management Team seeks to find foreign and domestic companies' ADRs the Team believes are undervalued, without regard to capitalization. The Team considers common and preferred stocks, and exchange traded funds (ETFs) that invest primarily in equity securities. The Management Team looks at historic patterns of valuations as it considers fixed income issues for the Fund, as the duration of the fixed holdings are adjusted in response to regularly conducted analyses for interest rate risk.

Moral Screening

Timothy Plan is committed to maintaining biblically responsible portfolios. If you believe that one of our holdings is violating pro-life/pro-family values, please contact us.
