Fund Sub-Advisor

Eagle Global Advisors ("Eagle") is owned by its employees. Eagle uses a team approach for the management of the International Fund, with each member of the team assuming responsibility for a geographic area of the globe and specific market sectors within that geographic area.

Objective

The Fund's objective is long-term growth of capital. The Fund seeks to achieve its objectives by investing in American Depository Receipts (ADRs) without regard to market capitalization. ADRs are receipts typically issued by a U.S. bank or trust company, which evidence ownership of underlying securities issued by a foreign corporation.¹¹

Strategy

Without regard to market capitalization, and placing little or no emphasis on dividend income, and after considering the moral screens, the International Fund invests in the ADRs of companies the manager believes will have both revenue and a high probability for superior growth that exceed the economy as a whole. The manager allocates investments across countries and regions, considering the size of the market in each country and region relative to the size of the international market as a whole. The Fund purchases ADRs whether they are "sponsored" (S-ADR) or "unsponsored" (U-ADR).¹² S-ADRs are issued jointly by the issuer of the underlying security and a depository. U-ADRs are issued without participation of the issuer of the deposited security. Holders of U-ADRs generally bear all the costs of such facilities.

1 Data as of June 30, 2017
 2 Past performance is no guarantee of future results. Share price, yield and investment returns fluctuate such that an investor's shares may be worth more or less than their original cost upon redemption.
 3 This chart is for illustrative purposes only and does not represent past or future performance, or portfolio composition. This hypothetical \$10,000 investment in the Fund's Class A shares for a 10 year period or since inception assumes the reinvestment of dividends and capital gains. Performance for the Fund's other share class(es) would be different.

 5 Annualized.
 6 Inception date represents commencement of the Timothy Plan's International Fund.
 7 Morgan Stanley Capital International Europe, Australia and Far East (MSCI/EAFE) Index measures performance for a diverse range of developed country global stock markets. The database is approximately 1,500 stocks. These indexes are calculated in US dollars and in local currency, without dividends, with net dividends or with gross dividends reinvested.
 8 Portfolio holdings are subject to change at any time. References to specific securities should not be construed as recommendations by the Fund or Timothy Partners, Ltd.

 10 Since Fund's inception.
 11 International funds, compared to domestic funds, have added risk from currency fluctuations, more rapid and extreme changes in value due to smaller market sizes, or from possible adverse political activities.
 12 The depository of an unsponsored facility frequently is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through voting rights to the holders of such receipts in respect to the deposited securities. Therefore, there may not be a correlation between information concerning the issuer of the security and the market value of an U-ADR.
